

Overview

The MT92 remote meter, using with the MSC-N series controllers, provides users with accurate & comprehensive data analysis and real-time fault alarm. It is convenient for users to monitor the whole system's running status.

Features

- Dual communication ports design
- Real-time display of fault alarms
- Locally reading of real-time parameters
- Easy to install and operate
- ON/OFF button to control the load output

Model	MT92
Compatible products	MSC-N series controllers
Power supply	5VDC
Power supply method	Controller communication port
LCD visual angle	12' clock
LCD backlight	Yes
Installation method	Surface mounting installation
Self-consumption	14mA/5V(no backlight) 23mA/5V(backlight)
Working temperature	-20°C ~ +60°C
Storage temperature	-35°C ~ +70°C
Dimension	φ100mm X 19.4mm(Diameter X Height)
Mounting dimension	φ100mm X 50mm(Diameter X Height)
Mounting hole size	φ3.5mm
Net Weight	65g
